About Me
My name is Kemesha Waugh, i am young ambitious, and hardword person who believes that with deducation and consistency, i can achieve anything i put my mind to. I an currently pursuing a Bachelor's degree in computer science at the University of Technology Jamaica (UTECH). Icompleted an Associate Degree in Business Administration, Which help me develp my communication, organiational, and business skills. My Education has allowed me to explore both business and technology side of my interests. One of my biggest goals is to build a successful career in technology while becoming an entreoreneu. i hope to use my knowledge and creativity to develop websites and other digital solutions. I would describe myself as determined, creative, caring and always willing to learn. i know that success does not happen overnight, but committed to working hard, learning from my experience and becoming the best versio of my self.
